

FAIZAN UL HASSAN

Offensive Security Researcher | Penetration Tester | Red Teaming

Lahore, Pakistan | +92 314 2028108 | faizan@aqsec.co

linkedin.com/in/faizan-ul-hassan-offensive-security | github.com/Def-Warrior | [Upwork profile](https://www.upwork.com/freelancers/~faizan-ul-hassan)

PROFESSIONAL SUMMARY

Offensive security researcher at AQSEC delivering internal network penetration tests and red team engagements across Active Directory, web, network and API environments. Independent HackerOne researcher with validated and rewarded findings at RISCO Group, LoginRadius, Nordantech (€500 reward), goBluebird and signageOS, and 2 Hall of Fame recognitions. Hands-on experience securing AI agents against prompt injection and unsafe tool use. Every finding is delivered with reproduction steps, business impact and a fix engineers can ship.

PROFESSIONAL EXPERIENCE

Security Researcher | AQSEC (Full-time)

Sep 2026 – Present | Lahore, Pakistan

- Run assumed-breach and internal assessments across Windows and Linux; chain findings from initial foothold to Domain Admin.
- Objective-based red team operations mapped to MITRE ATT&CK: initial access, persistence, lateral movement, privilege escalation.
- Web application and API testing against the OWASP Top 10 and WSTG; technical and executive reports, fix validation and retesting.

Cyber Security Consultant | HimmatKaar (Part-time)

Mar 2026 – Present | Punjab, Pakistan · Hybrid

- Assessed web application and access control configurations and prioritized remediation by business impact.
- Ran vulnerability assessments, advised on security policy and data protection, and delivered security awareness sessions.

Independent Security Researcher — Web & API Security | HackerOne (Freelance)

Jun 2025 – Present | Remote

- Validated and rewarded findings at RISCO Group, LoginRadius, Nordantech (€500), goBluebird and signageOS.
- Focus: broken access control and IDOR, privilege escalation, business logic abuse, authentication and session flaws, REST and GraphQL APIs.

Cyber Security Analyst — AI Agent & Application Security | HackLikeMe (Part-time)

Nov 2025 – Jun 2026 | Islamabad, Pakistan · Remote

- Tested and hardened the platform and client-facing web surfaces of a startup building AI agents for DevOps and security workflows.
- Probed agents for prompt injection, unsafe tool use, insecure output handling and data leakage; folded security review into the development cycle.

Cybersecurity Intern — Security Governance & Risk | FESCO (Full-time)

Sep 2025 – Nov 2025 | Faisalabad, Pakistan

- Reviewed and updated cybersecurity policies aligned to NIST CSF, ISO 27001 and CIS Controls for a critical-infrastructure utility.
- Supported risk assessments, vulnerability management and incident response documentation; monitored logs and security events.

Red Team Intern | ITSOLERA Pvt Ltd

Jun 2024 – Sep 2024 | Islamabad, Pakistan · Remote

- Penetration testing and vulnerability assessments against assigned targets; documented exploitation paths and impact.
- Built CyberOX, a Python digital forensics tool with AI-assisted malware detection, traffic capture and disk recovery.

SKILLS & TOOLS

Offensive: Web application and API penetration testing, Active Directory and internal network testing, red teaming, bug bounty, AI agent security, OSINT

Frameworks: OWASP Top 10, OWASP WSTG, MITRE ATT&CK, CVSS v3.1, NIST CSF, ISO 27001, CIS Controls

Tools: Burp Suite Pro, Metasploit, Nmap, Nuclei, ffuf, Gobuster, SQLMap, Nikto, Wireshark, Hashcat, Wazuh, Kali Linux

Scripting: Python, Bash

PROJECTS

CyberOX — Python CLI for digital forensics: AI-based malware detection, network traffic capture, disk recovery, report generation.

SubHunter — Subdomain enumeration and takeover detection pipeline (Python, Bash, Subfinder, Amass).

AI Bug Hunter Framework — AI-assisted workflows for vulnerability discovery and misconfiguration detection.

CERTIFICATIONS

- | | |
|---|---|
| • DCJSP — Defronix Certified Junior Security Professional (DCJSP1302) | • EC-Council — CHFI, Computer Hacking Forensic Investigator |
| • IBM — Penetration Testing, Incident Response and Forensics | • NAVTTC — Digital Forensics and Cybersecurity |
| • Google — Cybersecurity Professional Certificate courses | • Cisco — Networking Basics · Clovin Security — Cybersecurity |

EDUCATION

BS Cybersecurity | Khwaja Fareed University of Engineering & Information Technology (KFUEIT) 2023 – 2027

Final year · CGPA 3.16 · Cabinet member: Blood Donor Society, Computing Club, Culture Society

LEADERSHIP & COMMUNITY

- Campus Ambassador, Hackviser (Jul 2026 – Present) · Coding Unit Head, Computing Club, NFC IEFER (Jan 2026 – Present)
- Campus Ambassador, HimmatKaar (Jan – May 2026): organizing team for Fusion Fest 2026 at The University of Faisalabad (200+ attendees)
- Industry Engagement Coordinator, IxDF Faisalabad Chapter (Apr – May 2026) · HimmatKaar LaunchPad 2026, Cohort 1
- Events: GitHub Copilot Dev Days Lahore at Systems Limited (Sep 2026); industry visits to AQSEC, InvoZone, Devsinc and NetSol Technologies
